## Revenue of \$63.8 million increases 17% year-over-year

WALTHAM, Mass.--([BUSINESS WIRE](#))--[Constant Contact@, Inc.](#) (Nasdaq: CTCT), which helps more than half a million small organizations connect with their customers through a suite of online engagement marketing tools, today announced its financial results for the third quarter ended September 30, 2012.

"We delivered on revenue and exceeded profitability expectations in the third quarter," said Gail Goodman, chief executive officer of Constant Contact. "Growth in revenue per user and retention rates continued to show solid gains. New customer additions were below expectations for the quarter. Interest in our products remains high; we saw increased numbers of visitors and trialers. Our conversion of trialers into paying customers underperformed historical trends. We have begun to implement changes that we believe will improve conversion back to historical rates moving forward."

"We have a strong brand and are the trusted marketing provider to more than half a million small businesses. Our opportunity is expansive and we continue to invest to drive the transformation of Constant Contact into a multi-product company. This evolution will take a bit longer than we had envisioned," continued Goodman. "Looking ahead, we are focused on growing our email business while testing, iterating and scaling our newer offerings."

"For the third quarter, we delivered revenue in-line with expectations and a better-than-expected adjusted EBITDA margin," said Harpreet Grewal, chief financial officer of Constant Contact. "Third quarter customer additions proved disappointing. As we look to subsequent periods, we are adjusting our guidance to reflect third quarter trends. For 2012, we expect to exit the fourth quarter with revenue growth of approximately 14% on a year-over-year basis, while also delivering annual adjusted EBITDA at the high end of our previous guidance. For 2013, we expect to deliver approximately 13% - 15% annual revenue growth and approximately 100 basis points of annual adjusted EBITDA margin improvement. ## Non-GAAP Financial Measures

This press release contains the following non-GAAP financial measures: Adjusted EBITDA, adjusted EBITDA margin, non-GAAP net income, non-GAAP net income per share, estimated cash tax rate and free cash flow.

Adjusted EBITDA is calculated by taking GAAP net income, adding depreciation and amortization, stock-based compensation, adjusting for taxes and contingent consideration adjustment, then subtracting interest and other income, net. Adjusted EBITDA margin is equal to adjusted EBITDA divided by revenue.

Non-GAAP net income is calculated by taking GAAP net income adding back stock-based compensation expense and then adjusting for the non-cash portion of income taxes and contingent consideration adjustment. Non-GAAP net income per share is calculated by dividing Non-GAAP net income by the diluted weighted average shares outstanding.

Estimated cash tax rate is calculated by dividing estimated taxes to-be-paid by estimated full year income before taxes.

Free cash flow is calculated by subtracting cash paid for the acquisition of property and equipment from net cash provided by operating activities.

Constant Contact believes that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to Constant Contact's financial condition and results of operations. The company's management uses these non-GAAP measures to compare the company's performance to that of prior periods for trend analyses, for purposes of determining executive and senior management incentive compensation and for budgeting and planning purposes. These measures are used in monthly financial reports prepared for management and in monthly and quarterly financial reports presented to the company's board of directors. The company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the company's financial measures with other software-as-a-service companies, many of which present similar non-GAAP financial measures to investors.

Management of the company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in the company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. In order to compensate for these limitations, management presents non-GAAP financial measures in connection with GAAP results. Constant Contact urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including this press release, and not to rely on any single financial measure to evaluate the company's business.

Reconciliation tables of the most comparable GAAP financial measures to the non-GAAP financial measures used in this press release are included with the financial tables at the end of this release.
