() Unique customers are rounded to the nearest 5,000. We define unique customers as customers of all of our products and services, inclusive of both subscription and transaction-based products. Transactional customers are included in the customer count for the period if they transacted within the prior 12-month period. A customer of multiple products and services is counted as one unique customer.*

Other Recent Highlights

- Released a donations offering for Canadian customers as part of the Constant Contact Toolkit. The new campaign type will help Canadian nonprofit organizations promote their cause, collect credit card donations, and attract new donors online. Along with enhanced CASL (Canadian Anti-Spam Law) functionality and new holiday campaigns, the new donations campaign type further enhances product features designed to help Canadian small businesses and nonprofits achieve marketing success.
- The partner channel continued to represent an increasing part of the overall business with new customer accounts up 23 percent year-over-year, driven by the success of both solution providers and strategic partners.
- Under the company's previously announced \$30 million share repurchase program, in the fourth quarter
 of 2014 the company repurchased approximately 307,000 shares of common stock at an average price
 of approximately \$29.32 per share for a total cost of approximately \$9.0 million. To date, the company
 has repurchased approximately 554,000 shares of common stock at an average price of \$29.55 for a
 total cost of approximately \$16.4 million.

"We are pleased to announce another quarter consistent with or better than expectations," said Harpreet Grewal, chief financial officer of Constant Contact. "2014 was marked by year-over-year improvements in gross new customer additions and a record increase in average revenue per user. Combined, they contributed to a meaningful acceleration in revenue growth for the full year and enabled us to deliver substantially higher profit margins and significantly higher free cash flow.

"Looking ahead to 2015, we look to deliver another year of accelerating revenue growth on our path to sustained revenue growth greater than 20% and expanding profitability margins greater than 20%. The increasing scale and leverage of our business, along with our disciplined approach to balancing growth and profitability, provides the opportunity for continued margin expansion and cash flow."

Non-GAAP Financial Measures and Other Financial Information

This press release contains the following non-GAAP financial measures: Adjusted EBITDA, adjusted EBITDA margin, non-GAAP net income, non-GAAP net income per share, estimated cash tax rate and free cash flow.

Adjusted EBITDA is a non-GAAP financial measure that is defined as GAAP net income before income taxes, interest and other income (expense), net, depreciation and amortization, stock-based compensation, and litigation contingency accruals. Adjusted EBITDA margin is a non-GAAP financial measure that is calculated by dividing adjusted EBITDA by revenue.

Non-GAAP net income is a non-GAAP financial measure that is defined as GAAP net income before the non-cash portion of income taxes, stock-based compensation expense, and litigation contingency accruals. Non-GAAP net income per share is a non-GAAP financial measure that is calculated by dividing non-GAAP net income by the weighted average shares outstanding.

Estimated cash tax rate is calculated by dividing estimated taxes to be paid by estimated full year income before taxes.

Free cash flow is calculated by subtracting cash paid for the acquisition of property and equipment from net cash provided by operating activities.

Constant Contact believes that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to Constant Contact's financial condition and results of operations. The company's management uses these non-GAAP measures to compare the company's performance to that of prior periods for trend analyses, for purposes of determining certain components of executive and senior management incentive compensation, and for budgeting and planning purposes. These measures are used in monthly financial reports prepared for management and in monthly and quarterly financial reports presented to the company's board of directors. The company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the company's financial measures with other software-as-a-service companies, many of which present similar non-GAAP financial measures to investors.

Management of the company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of Adjusted EBITDA, adjusted EBITDA margin and non-GAAP net income is that these non-GAAP financial measures exclude significant expenses and income that are required by GAAP to be recorded in the company's financial statements. In addition, these non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. In order to compensate for these limitations, management presents these non-GAAP financial measures in connection with GAAP results. Constant Contact urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including this press release, and not to rely on any single financial measure to evaluate the company's business.

Reconciliation tables of the most comparable GAAP financial measures to the non-GAAP financial measures used in this press release are included with the financial tables at the end of this release.
